EARLY GLICK HISTORY

In the years from 1754 to 1764 in the vicinity of Reading, Pennsylvania, many of the early settlers were raided, scattered, kidnapped and massacred by Indians that were very unfriendly in that area.

The first known Glick was a surviving member on one of those raids.

On a morning following one of these raids, he was found among others who had escaped the night raid.

The lad was too young to give any information other than his name, John Glick. They deduced from his talk that there were ten or twelve members in his family, including parents.

After the Indian raid many of the remaining folks migrated to Union County, Pennsylvania. John was taken along by a family that assumed responsibility for his welfare and raising. He grew up and was married there, to a Magdalena (Fisher) Miller. They had children, don't know how many, but Jacob was born Sept. 29, 1803. Jacob had a son, John, who was born July 14, 1829, which is the one this book starts from. He was born in Mifflin County, Pennsylvania, but died near Middlebury, Indiana, on his 67-acre farm, on May 17, 1896, at the age of 66 years, 10 months and 5 days. He was married to Martha Hooley. Martha was born March 15, 1835, and died an April 8, 1922, in Clearspring township, at the age of 87 years and 24 days. They moved to Indiana in the year 1868.

THANK YOU!

First I extend a hearty thank you to all who helped supply the information needed to set up this Family Record, and hope the kind readers will bear with us and overlook our shortcomings and mistakes; as this is not so easily done that there will not be mistakes in one way or other.

Some families are incomplete, mostly due to the fact that some parties failed to answer the letters of inquiry at all, or answered them only in part.

We are thanking you, one and all, for your co-operation in getting this book thus far.
